9. Male stud coupling C3		058670
10. Drawing + pictures for installation	T9601-0	
Retrofit kit complete	T9601-0	051571

Required work:

Installation of the wheel unit and axle, using the correct distance bushing: 6,5 mm for 130 mm landing gear width and 16,5 for 140 mm landing gear width, mounting of the brake assembly with the torque plate assembly, installation of the mas

If you have only little experience with hydraulic systems, we may recommend to contact an appropriate work shop to have done that modification.

Remarks to the tire: If you just need a new tire you may consider to take that opportunity to change to the standard size 5.00-5
