

Retrofit kit to upgrade Discus to disk brake

Description	Drawing	p/n
1. 4" Disk brake wheel 110-20	T9270-0	054111
2. Brake assembly 30-9 for use with brake fluid DOT 4 with anchor plate	TN0505	075820
3. Hydraulic fitting 45°		075831
4. Torque plate assembly with anchor bolt with bushing		
5. Master cylinder type 7	T9114-03	058270
6. Hydraulic hose type 3 = connection in a 90° angle to the master cylinder		price depending on length and type
Hollow screw with copper gaskets		058550
Alternatively: Hydraulic hose type 2 = straight connection to the master cylinder		price depending on length and type
+ Male stud coupling C3		058670
7. General arrangement drawing		
Retrofit kit complete		051412

Required work:

Installation of the wheel unit, brake assembly and master cylinder with reservoir, laying of hydraulic hoses, filling and bleeding of the system.

If you have only little experience with hydraulic systems, we would recommend to contact an appropriate work shop to have done that modification.
