

## B) Installation of a new wheel hub

# Retrofit kit to upgrade SZD 55 to disk brake

Description	Drawing	p/n
1. Disk brake wheel 5", 122 mm installation width, 25 mm bearing		055145
2. Brake assembly 30-9, for use with brake fluid DOT 4, including anchor plate		075820
3. Hydraulic fitting straight		075830
4. Torque plate assembly with anchor bolt	T9108-1	055762
5. Butt assembly for attachment of the brake	T9108-2-3-4	055763
6. Master cylinder type 7 (horizontal installation)		058270
7. Support for master cylinder (for mounting on an inclined surface)		059510
8. Hydraulic hose type 3 (price acc. to length)		
9. Hollow screw with copper gaskets		058550
10. General arrangement drawing	T9108	
<b>Kit as above</b>		<b>051550</b>

### Required work:

unscrew wheel bolts and drill, turning of wheel hub half, fitting hub and brake disk, installation of master cylinder, laying of the hydraulic hose, installation of the wheel unit to the landing gear, filling with brake fluid DOT 4

If you have only little experience with hydraulic systems, we would recommend to contact an appropriate work shop to have done that modification
